ELTE Journal invites articles that have never been published before anywhere else. Manuscripts should be type-written, one and a half-spaced on quarto (A4) sized paper 9 - 20 pages in length; preferably on a standard floppy diskette with one hard copy. The article format should comply with the standard form of scientific writing. Articles will be reviewed by the Editors and/or Subject Reviewers. The Editors reserve the right to edit articles for format consistency without altering the substance.

## **Preface**

Welcome to the Journal of English Language Teaching and Education (ELTE Journal) Volume: 8 Number 2, September 2020. This journal presents some articles on the English Language Teaching and Education. This journal is intended to provide a platform both for established and early-career researchers. ELTE Journal provides a high profile medium for academics, professionals, educators, practitioners and students in the field to contribute and disseminate innovative works on language teaching and education. The contents include reports based on analysis, studies and application of theories from junior and senior high school teachers, lecturers and students of Graduate Program PGRI University of Palembang.

The journal is published twice a year and accepts research papers and forum articles from the field of English Language Teaching and Education. ELTE Journal invites original, previously unpublished, research and survey articles, on both practical and theoretical aspects of language learning and teaching as well as research. Research papers and forum articles are all subject to peer review before being accepted for publication.

In this September 2020 edition, the editors received 12 articles from teachers, lecturers and students not only from Graduate Program PGRI University of Palembang but also from other schools, and universities. Furthermore, in selecting the articles for this volume, the reviewers analyzed and selected them based on the requirements for journal writing publication.

Finally, the editors would like to thank several people and parties for their help, support and contribution. Any constructive comments, suggestions, criticisms and contributions for future editions are welcome.

### ***Abstract***

The research was based on a preliminary study on the problems related to students' reading comprehension. The problems of the study were (1) students have a little understanding to convey the meaning of words in the descriptive text, (2) long sentences in the descriptive text make students confused in understanding the meaning of the text, (3) students have a little interest in learning and understanding the meaning of the text, (4) teachers have difficulties to find the suitable method to stimulate students in learning reading text. This study was a classroom action research at the seventh-grade students of SMP Negeri 2 Teluk Gelam of OKI and its inquiry to improve students' reading comprehension on the descriptive text through jigsaw teaching strategy. This research was conducted in two cycles, each cycle has four steps these are (1) plan, (2) action, (3) observation, and (4) reflection. To collect the data, the researcher used the instrument of observations and tests. The data obtained were presented in two ways, qualitatively and quantitatively. The findings showed that there was an increasing average score from cycle 1 (61.60) to cycle 2 (83.75). It means that was 22.15% of students improving their reading ability to cycle 2. Based on the result, it is concluded that the jigsaw teaching strategy can improve students' reading comprehension of the descriptive text in cycle 1 to cycle 2.

**Keywords:** Reading comprehension, jigsaw teaching strategy, descriptive text.
